

Halifax Community College's
Annual Report 2010

Message from the President

Dr. Ervin V. Griffin, Sr.

I want to thank everyone for supporting Halifax Community College. We look forward to serving more students, business and industry partners this year regardless of the fiscal challenges ahead. Our headcount enrollment for the fall 2009 and spring 2010 semesters grew by 25% each semester. We served 1,703 curriculum students in fall 2009 and 1,730 students in the spring semester 2010. We also served 3,185 students in our continuing education, basic skills, and workforce development programs during the fall semester 2009. Our spring 2010 enrollment represented the largest spring enrollment in HCC's history.

We also opened the Roanoke Valley Early College where 63 students enrolled during its inaugural year. In 2007, HCC and the Roanoke Valley Business Education Partnership in collaboration with local school districts were awarded a grant to develop plans for the creation of an Early College high school program. Last year, HCC entered into a partnership with Weldon City Schools to make the dream a reality. The RVEC is a five- to six-year program. Seventh and eighth grade students will matriculate through a rigorous curriculum and have the opportunity to earn a high school diploma, an associate's degree and/or two years of transferable credits to a four-year college or university.

HCC secured a \$600,000 grant from the U.S. Department of Education for a second consecutive year to help HCC students, particularly African-American males, enroll and graduate from HCC. The project titled, "Freedom to Learn," provides learning coaches for students, internships, tutoring, and mentoring. The unique project focuses on increased satisfaction, retention, and graduation rates for these males.

Congressman G.K. Butterfield presented a federal appropriation of \$148,500 for the college's Allied Health technology upgrades. This funding, along with Golden LEAF Foundation support, will assist us with our nursing simulation laboratory project. The lab will offer skill development and hands-on training to students and those already in the workforce.

The Corporation for National and Community Service honored HCC with a place on the President's Higher Education Community Service Honor Roll for 2009 for exemplary service efforts. Also, our SGA brought home the Spirit Stick from the N.C. Comprehensive Community College Student Government Association (N4CSGA) conference. While there, HCC SGA President Theresa Raymond was installed as N4CSGA president and was honored with the Ray Jeffries Award.

During our 2010 commencement, we awarded 430 degrees, certificates, and diplomas to 384 graduates. HCC also had 205 graduates participating in the ceremony and all 128 associate degree students participated in the hooding ceremony. Associate Degree Nursing and Dental Hygiene graduates were pinned afterwards. The fourth annual Presidential Partnership Awards were presented to members of the local media for assisting us in fulfilling our mission in the community.

The 2009-10 academic year has been a very productive year even with the challenge of budgetary restrictions. I am very proud to be the president of this institution and look forward to working with our Board of Trustees, faculty, staff, students, and administrators to ensure that HCC continues to serve the Roanoke Valley with excellence.

Message from the Board of Trustees

Dr. Stanley Edwards, Chairman

The 2009-10 year has been a tremendous one for Halifax Community College. Our student enrollment increased by impressive numbers for both the fall and spring semesters. In fact, we experienced history-making, unprecedented growth this year. Just as we welcome new students to campus, we also congratulate them when they graduate. We are so proud of those HCC students who enter our doors with personal and professional aspirations and meet those goals while enrolled at the campus.

HCC has much to offer the community. We have several programs of study where students can earn degrees, certificates and diplomas as well as participate in enrichment opportunities throughout the year. In addition, we are committed to continuing education and providing basic skills, fire/EMS/Safety training, Human Resources Development and Career Readiness Certification, Small Business Center assistance and law enforcement training to so many in our area.

I truly believe that HCC is destined for remarkable success. We strive to be responsive to the needs of our students and the community. With the help of partners in business and industry and caring individuals, the college will continue to make positive contributions to the citizens in the Roanoke Valley. With sustained support, Halifax Community College will remain a place where "Learning Comes to Life in Pursuit of Excellence."

2009 - 2010 Board of Trustees

Presidential Partners

Halifax Community College President, Dr. Ervin V. Griffin Sr. recognized recipients of the fourth annual Presidential Partnership Award during commencement exercises, May 15. The award recognizes organizations that assist HCC in fulfilling its mission.

Recipients of this year's award included *The Daily Herald*, *Commonwealth Progress*, *Lake Gaston Gazette-Observer*, First Media Radio, and WEZU FM Radio.

"We have a number of people who help us carry out the mission of Halifax Community College. Most of these are through our partnerships," said Griffin. "This is our way of recognizing organizations that are committed to helping the college fulfill its mission."

The Presidential Partnership Award was presented to local media outlet representatives, May 15 during commencement exercises at Halifax Community College. Pictured from left are: C.J. Riddick with First Media Radio, George Campbell with WEZU, Susan Shaw-Snow with the Lake Gaston Gazette-Observer and Kristin Smith with The Daily Herald.

Message from the Vice President of Academic Affairs

Dr. Erica Holmes

It has been a pleasure and privilege to join the HCC family in the role of Vice President of Academic Affairs. The college continues to be a dynamic entity in the community. The diversity of our students continues to grow and I am pleased to see the opening of the Roanoke Valley Early College on our campus.

There are many important issues that our college and community will face in the next decade. We are fortunate to have a coalition of partners working together to provide services for our students and the community. Our faculty and staff are resilient leaders confronting challenges that are presented in these hard economic times. We continue to recognize that education remains one of the best investments anyone can make in today's economy. There is no better time to pursue a college degree.

In the classrooms, we are developing instruction that incorporates mathematics, technology and green initiatives in every curriculum. We are educating the leaders of tomorrow in accounting, healthcare, criminal justice, education and business. Our industrial technology and automotive programs are in demand. We have many other educational opportunities including continuing education courses. Please visit our website, www.halifaxcc.edu, to find our information about all of our programs. If you have not yet made the connection to Halifax Community College, I invite you to come and be a part of this great college. There are many opportunities for you to study, volunteer, and contribute.

Student Demographics

2008 - 2009	2,106*
Female	64%
Male	36%
Halifax County residents	75%
Northampton County residents	18%
Out-of-service area residents	7%

Continuing Education Students

2008 - 2009	6,033*
Female	47%
Male	53%

**Maybe a duplicated sum*

Message from the Dean of Curriculum Programs

Dr. Harriet Morrison

The Curriculum Programs area consists of five schools: Phil Pair, school chair of Arts and Sciences; Monica Simmons, school chair of Business and Commercial Technologies; B.T. Brown, school chair of Legal and Public Service Technologies; Hunter Taylor, school chair of Vocational and Industrial Technology; and Kelly Harvey, school chair of Nursing and Allied Health, plus three administrative assistants including Tuwana Jones, Katherine Sandlin, and Willie Mae Alston who serve as support staff to the adjunct and full-time faculty, and a dean, Dr. Harriet R. Morrison. The school chairs have the responsibility of supervising the 24 departments with approximately 61 full-time faculty and 31 adjunct faculty members

Each school is represented well in academic excellence. For the year 2010, the HCC Excellence in Teaching award went to Calvin Stansbury, math instructor, and the part-time Excellence in Teaching award went to Jenne Vaughan, psychology instructor. Dr. Julie Dilday, psychology instructor, is coordinator of the College's Quality Enhancement Plan (QEP), and she led a roundtable discussion on the first five steps of QEP development at the SACS Annual Meeting in Atlanta in December. One of the major components of our QEP is Learning Communities, which we piloted in Spring 2010 with Math 060 and ACA 085.

The Advertising and Graphic Design department at Halifax Community College will have state-of-the-art software and hardware for its Fall 2010 class. The students will receive the finest technical training available for graphic designers ever offered at HCC. This year, the Graphic Design program received Macintosh computers with the latest Adobe software, the latest in Apple iWare, and work stations with the latest technology available. The program is planning a gallery art show at the Centre this fall to display some of their new creativity and ability.

All in the Curriculum Programs have continued to excel this past year to make every program a success. They have advised, tutored, recruited, served as tour guides, achieved professional development, and most of all, they have maintained the academic standard of the college's slogan, which is "Learning Comes to Life in Pursuit of Excellence."

Message from the Dean of Student Services

Barbara Bradley-Hasty

In our continued pursuit of excellence, we remain student-centered and student-focused. Student Services is the heartbeat of the campus. Team members are constantly on the frontline helping students realize their dream of coming to college. That commitment and passion does not end there—it is merely the beginning! Once students enroll, our team's goal is to reach out and work with the faculty and staff to retain these students. Retention efforts are administered through tutoring, academic and personal counseling, job placement assistance, mentoring, cultural enrichment trips, transfer guidance, professional development, and financial aid counseling. Our intra-semester retention rate for Fall 2009 was **91.4%** and **93%** for Spring 2010. Spring retention increased by 4%.

As Dean of Student Services and Enrollment Management, I cannot forget about the record-breaking enrollment growth our campus has continued to celebrate. For example, Fall 2009 enrollment increased by **24%** over Fall 2008 and Spring 2010 increased by **20%** over Spring 2009. Yes, there are those who credit our growth to the recession, and to a certain extent I agree, but I also strongly believe potential students choose Halifax Community College because of the extensive outreach and customer services provided by the Student Services team. Some of Student Services' 2009-2010 highlights include:

Admissions/Testing

- ◆ Created a Follow-up Success Plan for nursing re-admits to help with student retention.
- ◆ Worked with College Foundation of North Carolina (CFNC) to create automatic bounce back letters to online applicants that detail admissions requirements. This reduces the College's postage, stationary costs, but most importantly, it begins the communication process with potential students earlier than traditional mail, especially during peak registration times.
- ◆ Created a College Redirection Pool, which was set up in conjunction with CFNC to recruit students in our service area who were not initially accepted at four-year institutions.
- ◆ During the month of April 2010, meetings were held for the prospective graduates. Graduates were oriented on the importance of updating their resumes to include their new educational accomplishments. A total of **130** prospective graduates attended these sessions.

Registrar

- ◆ Registration for all students became available through **WebAdvisor**.
- ◆ The **first** FERPA training was conducted for faculty. A FERPA training PowerPoint was e-mailed to HCC faculty as well as made available on the HCC file exchange.
- ◆ **No exceptions** were found during FTE and VA audits. This office has a consistent record of successful audits for the past 10 years.

- ◆ Instructional videos for grading and using the PERC screen in Colleague were created and made available for faculty. These videos are available through file exchange.
- ◆ Conducted WebAdvisor training for members of PRIDE staff (viewing transcripts and final grades) and faculty (grading module).
- ◆ Degree Verify through the National Student Clearinghouse was implemented. Degree verifications are now processed through the National Student Clearinghouse. Participation in this service assists students by simplifying the degree verification process.
- ◆ Effective Summer 2009, transfer equivalency reports were e-mailed to the student (G-mail account) and the student's advisor upon completion of a transcript evaluation.

Student Support Services (SSS)

- ◆ During the 2009 - 2010 school year, the goal was to serve **250** students. At the end of the year, the findings indicated that there were **1,643** contact hours for tutoring in high-risk areas, **250** contact hours of counseling, and **22** contact hours for face-to-face workshops including several online. The services given to the students for the 2009 - 2010 school year resulted in a retention rate of **94%** (percentage of students in the program at the end of the academic year) and **9%** of the **250** served were eligible to graduate.
- ◆ Fall 2009, SSS sponsored a campus-wide club and organization open house activity. Students had the opportunity to learn more about various clubs and organizations on campus, and were also given the opportunity to play video games, dance to the sounds of a live DJ, and eat lunch.
- ◆ SSS co-sponsored the Women of Excellence's first annual conference at The Centre. Also, participants traveled to Washington, D.C., New Jersey, New York and Burlington, N.C.

JobLink

- ◆ Beginning in July 2009, JobLink acquired a grant of **\$113,000** to implement an American Recovery and Reinvestment Act program for 2009 - 2010. JobLink's success for the past fiscal year was centered on enrolling a total of **73** students in the "12-in-6" programs. Additionally, JobLink offered a "12-in-6" work experience component in conjunction with the student's training or as a "stand alone" component.
- ◆ In January 2010, JobLink placed a former HCC student with few skills and no job prospects in a "12-in-6" work experience arrangement with HCC's Maintenance Department.

Counseling

- ◆ The Counseling Center passed the disability services audit.
- ◆ The Director of Counseling was the first HCC advisor to be named to serve as the **N4CSGA** senior advisor.
- ◆ Advisor to HCC's Student Government Association that won the N4CSGA Spirit Award.

Financial Aid

- ◆ Significant increases in most financial aid programs over the previous academic year.
- ◆ Pell: **32%** increase in number of federal Pell grant recipients; **47%** increase in Pell dollars.
- ◆ Stafford Loan: **123%** increase in federal Stafford loan recipients; **158%** increase in federal Stafford loan dollars; implemented year-round Pell Policy
- ◆ Implemented "in-person" probation counseling program in an effort to educate students, reduce financial aid suspensions, and increase retention.
- ◆ No audit findings during the 2009 - 2010 visit.

Message from the Dean of Continuing Education

Vera J. Palmer

Halifax Community College's Continuing Education Division continues to provide high-quality, accessible, and affordable education and services. Classes are typically short-term, non-credit and non-degree, meeting needs from basic literacy to job training and upgrading of job skills. Also, classes are available for personal enrichment and lifelong learning. Some highlights include:

Basic Skills Programs

- ◆ Basic Skills Programs offer Adult Basic Education/GED classes, Basic Reading classes, and English as a Second Language (ESL) classes. Students who have not completed their high school diploma or General Educational Development (GED) are able to enroll in the program and receive self-improvement. These education services are offered at no cost.
- ◆ Basic Skills services are offered at the on-campus Learning Lab and more than 17 off-campus classes throughout Halifax Community College's service area.
- ◆ During 2009, Basic Skills Programs generated 115 full-time equivalent (FTE) students, an increase from 102 in 2008.
- ◆ On Jan. 28, 2010, *The Daily Herald* featured the Basic Skills Program. GED graduates were interviewed and photographs were taken of students, staff, and Dr. Griffin.

Fire/EMS/Safety

- ◆ Fire and EMS Coordinator Kevin Kupietz completed the first year of the National Fire Academy Executive Officer's training.
- ◆ Conducted first area Advanced Stroke Life Saving and Cardiac Heart Lab classes for area healthcare employees.
- ◆ Sponsored several live burn training classes.
- ◆ Fire and EMS personnel worked with local emergency services to provide guidance and assistance in developing emergency protocol for the new airport.
- ◆ Piloted new online EMT Basic and Paramedic classes.

Human Resources Development

- ◆ HCC's Human Resources Development (HRD) program has greatly increased services to its clientele over the past year, giving a boost to FTEs. In fact, during Fall Semester 2009, under the leadership of HCC's HRD Coordinator Tiffany Hale, HCC generated the highest number of FTEs ever for a single semester.
- ◆ The HRD program partners with several local agencies in order to continuously provide employability skills training to unemployed and underemployed individuals.

Business and Industry

- ◆ Successfully completed the requirements for three grants and exceeded expectations/goals on all.
- ◆ Awarded nearly 500 Career Readiness Certificates to grant participants.
- ◆ Developed a partnership with Halifax Regional Medical Center and provided Career Readiness Certification (CRC) assessments for medical personnel.
- ◆ Worked closely with the JobsNOW federal stimulus initiative and provided training to help people become gainfully employed.

Small Business Center

- ◆ Provided counseling services for business start-ups.
- ◆ Held seminars such as "Stabilizing Your Personal Finances in Unstable Times", "Managing Stress in the Workplace", and "Can My Business Idea Support Me?"

Certified Nurse Aide (CNA)

- ◆ The CNA Program, in its effort to provide and maintain qualified services, increased its staff and offered more outreach classes in HCC's service area.

Law Enforcement

- ◆ Offered online, in-service training for tele-communicators, detention, law enforcement, and other law enforcement agencies.
- ◆ Hybrid law enforcement classes were incorporated to enhance the learning process.

Community Services

- ◆ Offered a variety of cultural, enrichment, and just-for-fun classes to meet the diverse needs of our clientele.

News Highlights from 2009 - 2010

Weldon City Schools Superintendent Dr. Elie Bracy III signed an agreement with HCC President, Dr. Ervin V. Griffin Sr., making the dream of creating the Roanoke Valley Early College (RVEC) on the HCC campus a reality. More than 60 students attended RVEC during the 2009-10 academic year.

HCC was awarded a \$600,000 Office of Secondary Education's Predominantly Black Institutions Program federal grant to operate the "Freedom to Learn Initiative" for a second year. The program focuses on the educational outcomes of HCC students, particularly African-American males, in order to increase satisfaction, retention and graduation rates.

The HCC Child Care Center was awarded the Child Care Access Means Parents in Schools (CCAMPIS) grant. The CCAMPIS Program supports the participation of low-income parents in postsecondary education through the provision of campus-based child care services. Also, Child Care Center teacher Catherine Robinson was selected as a Terri Lynn Lokoff National Child Care Teacher Awards Recipient. She received a \$500 award for the classroom project she designed and a \$500 stipend.

E. Republic's Center for Digital Education and *Converge* magazine announced the winners of their fifth annual Digital Community Colleges Survey. Those named are the leading community colleges across the country that offer exceptional technology support to students and educators. HCC was ranked in the top 10 community colleges in the nation in the small colleges with less than 3,000 students category, earning an eighth place finish.

North Carolina Missions of Mercy held a free adult dental clinic at The Centre at HCC. The clinic, which was sponsored by the North Carolina Dental Society, treated 339 patients over a two-day period and offered dental cleanings, restorations and extractions. Partial and denture repairs were also made. More than \$155,000 worth of free dental care was performed at the clinic.

HCC was named to the 2009 President's Higher Education Community Service Honor Roll, the highest federal recognition a college or university can receive for its commitment to volunteering, service-learning and civic engagement. The Early Childhood Education program's child care class co-ops, second-year nursing students' assistance with a drive-through flu vaccination clinic, the PRIDE Mentoring Program's second annual Men to Men Summit, and the Healthy Smiles Dental Hygiene program's work with low income children were cited for this service.

HCC SGA President Theresa Raymond was installed as the North Carolina Comprehensive Community College Student Government Association (N4CSGA) President, a first for HCC. She also received the Ray Jeffries Award for outstanding leadership and support of the N4CSGA. HCC's SGA also brought home the Spirit Stick, as well as garnering first place in the Spirit Competition, second place in Quiz Bowl and the Scrapbook Contest, and third place in the Spades Tournament and Showcase Booth Contest.

President of the Golden LEAF Foundation Dan Gerlach presented a check for \$246,000 to HCC to benefit the Roanoke Valley Early College. HCC also received Golden LEAF Foundation support in the amount of \$100,000 for the college's Allied Health Simulation Lab Enhancement Plan. This support, along with a federal appropriation, will create one of the most technologically sophisticated nursing simulation labs in the region.

Message from the Vice President of Administrative Services

Deborah Armstrong

Halifax Community College (HCC) has seen an historic growth in enrollment during the past year which provided for an increase in our State Aid formula allotment for FY 2010-11. This part of the College budget covers instructional and administrative costs. In spite of the unprecedented enrollment growth, the General Assembly enacted a management flexibility reduction to the State Aid budget which requires HCC to revert \$341,507 at the beginning of the fiscal year. Uncertainty as to whether the State will receive certain federal funds to support Medicaid expenses along with contingencies to cover revenue shortfalls requires the College to hold in reserve 3% of its general fund appropriation for possible budget reversions later in the fiscal year. Based on this information, HCC will continue the conservative spending plan put into action during fiscal year 2009-10.

No increase in County allocations was received for fiscal year 2010-11. Halifax County carried forward the 3% reduction in funding approved during fiscal year 2009-10. County funding supports the operation and maintenance of the College's physical plant. It has become a great challenge to meet increases in utility and service rates and to carry out repairs for aging buildings and systems when funding allocations do not keep pace with increases in operational costs. To meet the operational needs of the College, sound budget management and conservation of limited resources will be strictly observed.

Halifax Community College is not immune to the current economic conditions which are proving to be very challenging for any business. We will monitor our budgets closely, spend conservatively, delay those projects that can wait, and ask our employees to use resources wisely. Faculty, staff, and administration working together will allow HCC to meet current budgetary constraints while also meeting the educational needs of our students and service area.

COLLEGE BUDGET SOURCES

Message from the Vice President of Institutional Advancement/ Foundation

Thomas Schwartz

In the 2009 – 2010 academic year, the HCC Foundation raised a total of \$96,353.12 in gifts and pledges from 221 different giving units. The College's new 2010 Centre fundraising raffle brought in \$2,829 from 2825 tickets sold. Eleven new scholarships were established last year. They are:

- BB&T Scholarships (2)
- Dominion Power Scholarships (5)
- John Walter Bell Memorial Scholarship
- Renee Jones Carter Memorial Scholarship
- Sally Hudson Memorial Nursing Scholarship
- Terrence Boone Scholarship

The Grants area submitted six new grants for the year. Of these, four were successful, bringing to the college a combined total of \$772,728 in new dollars. Grant continuation reports and requests were submitted for an additional \$725,000, bringing the total raised by the Grants area to \$1,497,728.

Our Public Information Office wrote and distributed 168 releases during 2009 – 2010. In addition, 124 photo sessions were conducted and 440 G-mail messages and follow ups were sent out. Melanie Temple, our PIO, is important in working with the Financial Aid team to award Foundation scholarships each year, and to coordinate the scholarship awards ceremony and several of the college's large cultural events. In addition, Melanie works closely with local media outlets on the coverage of campus events and programs.

Kim Edwards, our graphic artist, was able to save approximately \$1,100 in print shop costs by printing a reduced number of last year's annual reports in house rather than outsourcing these as was done the year before. In order to continue to circulate the publication, many were sent to stakeholders in electronic, rather than in print, format. Overall, print shop costs were trimmed by over 5% through careful management. Yet the area continued to do its superior work of developing and designing all print and marketing materials for the college.

The Centre hosted 86 different events during the 2009-2010 academic year. Of these, 43 were sponsored solely by HCC and 16 were cosponsored with other groups and organizations. Another 25 were private rentals. Best of all, however, the Centre ended with its budget in the black for the second year in a row. This is after a number of years of budget deficits.

Institutional Advancement continues to manage a number of active grants on campus, including the ASPIRE teen abstinence grant and the PRIDE minority male program.

We are excited about the accomplishments we have achieved on behalf of our students, and look forward to an exciting 2011.

Message from the Foundation Board Chairman

Charles McElheney

The Halifax Community College Foundation Board of Directors would like to extend our appreciation to all of the donors for their continued support of the college. This past year was very successful in spite of the tough economy that we all faced. In October, the Foundation hosted its 22nd Annual Scholarship Awards Ceremony. Due to donor and supporter generosity, 114 scholarships were awarded to 75 students last year, totaling more than \$76,000 in scholarship awards. Also, several new scholarships were established in 2009-10 including:

BB & T Scholarship #1 and #2
Dominion NC Power Scholarship
John Walter Bell Memorial Scholarship
Reneé Jones Carter Memorial Scholarship
Sallie Hudson Memorial Scholarship
Terrence Boone Scholarship

The Foundation plays a vital role in providing assistance to our students. Without this help, many would be unable to continue their studies at the college. It is absolutely necessary that we assist our students in this way, because it will impact our community. Better education equals more economic opportunity for our graduates and the community. Please know that we sincerely appreciate your support and that your gift makes a real difference in the lives of our students.

Mission, Vision, and Values Statements

Mission

HCC strives to meet the diverse needs of our community by providing high-quality, accessible and affordable education and services for a rapidly changing and globally competitive marketplace.

Vision

HCC will continue to be a catalyst for educational, cultural, and economic progress in the Roanoke Valley by anticipating and responding to the needs of an evolving global community.

Values

Integrity: We live by a code of ethics which includes truth, humility, respect, and fair-mindedness to all people.

Service: We actively support the growth and development of a culture of service in our community by word, example and collaboration.

Continuing Learning: We value and promote the process of reaching our individual and community-related potential through a life-long pursuit of education, both formal and informal.

Collaboration: We promote the combined efforts of all stakeholders in accomplishing common goals of government, education, industry, and the public.

Accessibility: We provide opportunity and support to all who seek personal enrichment or a higher quality of life.

Innovation: We embrace new and creative approaches to continually improve the quality of our education and services.

Diversity: We believe an appreciation of differences adds to the richness of the learning environment and the personal development of all.

Accountability: We take responsibility for continuous quality improvement, serving the needs of our community, utilizing our fiscal and educational resources wisely, and providing quality education and services with strategic outcomes.

“Creating Success - Hope, Opportunity, and Jobs”
