

Small Business Center Seminars and Courses

Helping Our Businesses and Community Grow and Prosper!

The HCC Small Business Center uses a three-fold effort to help small businesses succeed.

1. Non-traditional seminars and workshops can be presented on virtually any business-related topic that the small business community demands.
2. Counseling services are provided for start-up businesses or problems of existing businesses.
3. A resource center with periodicals, tapes and books that may be used on the premises or checked out from the HCC Learning Resource Center.

These classes and resources are free and of excellent value to the public. The Small Business Center welcomes comments about how to continue to serve the needs of the small business community.
