

NCCCS Regional Calendar Public Safety Classes directions

This is a list of courses that have been setup by community colleges in a central location. NOTE that this may not be a complete list as these courses only reflect classes that the paperwork has been setup in the central system. Often this does not happen by the local schools until a month before the class is offered and sometimes even shorter notices. For a long range list of classes still visit your local college's web pages or long term lists. Also if traveling a distance always call the department or school before driving out to ensure no changes to the class that will cause your drive to be for nothing.

- go to <http://www.nccommunitycolleges.edu/> or search NCCCS
- on the upper right click "Students"
- on the next page click "Combined Course Library"
- On the right side under Continuing Education click "Student Search"
- On the right click "Public Safety Calendar"
- From here you can search for class you are looking for in several different ways.

NCCCS Public Safety Calendar

This is a calendar where you can find classes listed through the system of all of the colleges. Colleges will advertise their classes here so if you need a special class not being offered locally you may find it on this calendar.

- Go to <http://www.nccommunitycolleges.edu/workforce-continuing-education>
- Click on [North Carolina Community College Public Safety Training Calendar](#)
- On the next screen on the right side click on "[Public Safety Training Calendar](#)"
- Conduct your search by topic, class or college.
