P.R.I.D.E. Mentoring GOALS

- Improve student performance
- Increase student retention
- Promote personal and academic growth
- Promote career awareness and goal orientation

P.R.I.D.E Mentoring Program envisions Halifax Community College male students experiencing healthy one-to-one and/or group relationships, with the support of the community and HCC, which in turn allows each of them to develop into independent and self-assured men capable of making informed, responsible decisions as involved members in society.

P.R.I.D.E.

Preparing men for Intellectual, academic, & Educational success.

P.R.I.D.E. Mentoring Program is a retention mentoring program designed to improve academic success and retention, and assist HCC students in reaching their career goals. The primary focus is to provide structure and trusting mentoring relationships to HCC students that facilitate academics and personal growth.

SELECTION AND GUIDELINES?

Mentors and Mentees are matched according to major area of study, common interests, hobbies, and career goals. Mentors and Mentees must attend an initial training orientation before they are matched. The Mentor and Mentee will also have on-going support/training workshops throughout the HCC academic school year. Following the initial training orientation, the mentoring partnership will communicate weekly and meet physically for a minimum of 4 hours a month.

Mentors Responsibilities

• Communicate with assigned HCC male student on a weekly basis and meet with him physically at least 4 hours out of the month according to the agreed upon schedule
• Assist in the development of skills necessary for student success in college
• Foster a welcoming atmosphere and attitude
• Assist student in developing realistic career/academic goals
• Listen and encourage student to follow through on goals and tasks
• Participate in program activities

Participation

The participation in the P.R.I.D.E Mentoring Program is voluntary for Mentors. However, dedication and commitment are key values to successful benefits in the mentoring program. In addition, all participants must attend an initial training orientation and on-going support/training workshops. The cost of participation is FREE! P.R.I.D.E. encourages Mentor/Mentee relationships to extend at least one academic year. It is ideal for the Mentor /Mentee relationship to last throughout the students’ Halifax Community College experience.
